PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D

Molodechno Petroleum Storage (Figure 1) is located on the west side of Molodechno (54-19N 026-51E) on the south side of the Molodechno Rail Yards. The installation is rail served by a spur from the Molodechno-Smorgon rail line and road served by a city street. Molodechno Army Barracks Velikoye Selo (AL-1) is located 3 kilometers (km) east.

This secured installation covers approximately 50 acres and contains four probable

storage buildings, five buried POL storage tanks, and two buried probable POL storage tanks (Figures 2 and 3).

The area is covered by two KEYHOLE missions between [REDACTED]

Two storage buildings were added between the two missions. Track activity is light on summer coverage and none is observed on winter coverage.

DESCRIPTION OF INSTALLATION

25X1D

Railroad Service

The installation is served by a spur from the Molodechno-Smorgon rail line.

Road Service

A city street, which parallels the railyard, provides access to the installation.

General Storage Area

Area E (Figure 3) is secured and contains

four probable storage buildings, two of which appear to have been added between [REDACTED]

25X1D

POL Storage Area

Area G contains five buried tanks and two buried probable tanks of undetermined diameter. On winter coverage the diameter of the earthen mounds covering the tanks was approximately 140 feet.
